Descriptive List
of
Outstanding Gladiolus

EVERETT A. QUACKENBUSH
New Cumberland, Pa.

GREETINGS

In again presenting our list of Distinctive Glads we desire to thank our friends, both old and new, for the orders which they have given us during the past year. Knowing that a satisfied customer is the best kind of advertising, we have tried to give you good value for your money.

VARIETIES

In our opinion, each variety listed in our catalog has merit and is worthy of your consideration. As to whether you will like a particular variety may depend on your personal preferences and the purpose for which you wish to use the flowers. Remember that the price is not an indication of the quality of the variety. Newer kinds must of necessity be higher in price because of scarcity of stock. We suggest that beginners start with tried and true varieties in order to avoid disappointment. Growers of more experience and fanciers will want to try the newer ones.

SMALL FLOWERED VARIETIES

Because of the increased interest in the use of the smaller kinds for arrangements as well as for exhibiting we are including a number of this type. Our list is selective but we have included prize winners in all color classes usually listed for this group as well as a fine selection for arrangements.

OUR GUARANTEE

All our stock is guaranteed to be healthy, vigorous, free from thrips, and true to name. **You must be satisfied.** If any stock is unsatisfactory, tell us and we will try to satisfy you. If you like our bulbs and our service, tell your friends.

PLEASE READ CAREFULLY

All quotations are subject to previous sale. We urge that you place your orders early so that you may not be disappointed. Each year we are unable to fill late orders for a number of varieties. Orders are segregated as soon as possible after being received but will not be shipped until after danger of freezing is past, unless you request otherwise. However, bulbs can be sent any time desired. No substitutions will be made without your permission. If we are out of a variety you order, your money will be refunded unless you give us permission to make a substitution in size or variety. Cultural directions will be included with all orders.

All orders from the retail list will be prepaid to points in the United States. Prices as indicated in the quantity list are not prepaid, but are F. O. B. New Cumberland, Pennsylvania. If you wish to order part from the retail list and part from the quantity list, we will send the order transportation collect and include extras or overcount to make up for the transportation on the retail items. A discount of 5% will be allowed on cash orders of \$2.00 to \$5.00. On cash orders of over \$5.00, a discount of 10% will be allowed. These discounts do not apply to mixtures nor to orders from the quantity price list. We also include worthwhile extras with retail orders. The value of the extras will be in proportion to the size of the order. Suggest varieties desired as extras. If we have sufficient stock, we will be glad to comply with your request. See special discount coupon on page 15.

Where a variety is listed at 2 for 10 cents or 2 for 12 cents, please do not order a smaller number at a lower price. Five bulbs will be sold at one-half the price of ten, but no single item will be accepted for less than 10 cents. Where no 10 price is indicated, it may be found by multiplying the price of a single bulb by 8. Twenty-five bulbs of the same size and variety will be sold at 2 times the price of 10. One hundred of the same size and variety will be sold at 8 times the price of 10.

Where bulblets are sold by the packet, 25 to 50 or more will be included in each packet. We will give good value.

Do not ask for special quotations unless you have a large order. Our prices are very low for the high quality bulbs offered. However, we are glad to furnish special quotations to jobbers, growers, and others purchasing in large quantities.

All bulbs listed as large size are 1¼ inches and up, mostly 1½ inches and up, in diameter. Medium size bulbs are ¾ to 1¼ inches in diameter. Small bulbs are ¼ to ¾ inches in diameter. For the finest blooms, large bulbs are best. Medium size bulbs of most varieties will give nice cut flowers, but the spikes are not as long as from large bulbs. Although small bulbs of many varieties will bloom, others will not. The blooms from small bulbs will be noticeably smaller in size. Bulblets seldom bloom and are often difficult or impossible to germinate. We do not recommend them except to experienced growers.

1942 INTRODUCTION

INTERMEZZO (Seedling 3513) (Minuet x Picardy) Clear cream without markings except that a faint dusting of violet rose, very deep, gives a warm tone to the throat. The florets, somewhat similar to those of Minuet, are wide open, pointed and reflexed. Opens 5 to 8 five inch florets. Has 18 to 20 buds on spike which never crooks. Placement and attachment are excellent. The type is informal. Intermezzo is strong and healthy and is a tall grower, 52 to 55 inches or more. It blooms from any size bulb and when cut, opens up well in water. Having excellent substance and great decorative value, we believe it will prove to be a fine commercial. On the show table it should do well in its class. It makes plenty of bulblets which germinate readily and grow strongly. As Seedling 3513, given Award of Merit, West Virginia Society trial garden 1940. Award of Merit, Empire State Society, 1941. Best seedling spike in the show, Pennsylvania Society Show, Johnstown, Pa., 1941. (90 days).

This is, in our opinion, a very fine variety. However a fair size stock enables us to offer it at the very modest introductory price of one dollar per bulb for any size bulb. Those purchasing bulbs will be given the privilege of purchasing ten bulblets with each bulb at the price of 10 bulblets for one dollar. No bulblets will be sold separately.

FLORA FARMER

PREVIOUS INTRODUCTIONS

FLORA FARMER (Quackenbush) A beautiful radiant, deep pure pink, with a creamy white throat. Opens 5 to 8 large, ruffled florets at a time. Nearly all of the buds show strong color by the time the first floret opens, which adds greatly to its value as a commercial cut flower. It makes a strong straight spike which does not crook or fall over. Placement and attachment of florets excellent. It is a strong healthy grower, making plenty of bulblets which germinate easily and make good growth. Introduced in 1939, it has already won numerous blue ribbons and will win many more as stock becomes more plentiful. During the past summer it was in great demand with local florists and we were unable to furnish enough to supply their needs. Since large bulbs often produce two or three spikes, all eyes but one should be cut out when growing for exhibition purposes. (85 days)

MOTHER KADEL (Kadel) (Picardy x Spray of Gold) Medium yellow, slightly deeper in color than Mary Damaris. Entirely clear self color without marking or the slightest bit of foreign color even in its deepest throat. Opens 5 to 7 florets with 5 additional buds showing color. It makes a tall spike which does not crook. Placement and attachment are excellent. When cut it opens up well and is a good keeper. It is the best commercial cut flower yellow that we have seen. We helped introduce this variety for Mr. Kadel in 1941. Only large bulbs were sold and only a small quantity of stock was disseminated. However, the variety made a fine record at each of at least seven major shows, including the N. E. G. S. at Boston and the Mid-West at Chicago. At

PINK RADIANCE

the latter show it was also awarded the American Airlines Trophy for the outstanding bloom shipped by air express. While this variety will make a great record as a show flower, it will make even greater achievements as a commercial cut flower. Our faith in the variety is demonstrated by our having recently purchased jointly with Alfred Moses of Lima, N. Y., the entire stock of the variety. (90 days).

PINK RADIANCE (Quackenbush) (Picardy x Minuet) Pure light pink without marking except a very inconspicuous touch of carmine deep in the throat. Six to eight wide open florets of good size on a tall spike which never crooks. The spike is graceful. Excellent placement and attachment. Sixteen to eighteen buds. It is a vigorous grower, producing plenty of bulblets which germinate well. Introduced in 1941, it was exhibited by only three or four persons last summer and at only a few shows. Yet it won more than a dozen blue ribbons at major shows, including the N. E. G. S. at Boston. It will go far as a show flower. However, its greatest potential value is as a commercial cut flower. It makes nice spikes from any size bulb, and opens up well in water when cut. The blooming period is 90 days.

GUNPOWDER (Sewell) This is a color sport of Picardy, identical to its parent variety in all respects except color, which is a clear buff with slight throat markings. This variety is a tall strong grower and does not show the tendency to come short often displayed by Picardy. Gunpowder was the most vigorous of the buff Picardy sports grown at the Maryland trial garden during the past summer. We assisted in introducing this variety for Mr. Sewell in 1941. Although on the market only one year this variety has been a consistent winner in its class where shown. At the 1941 Maryland

show it was judged the best three spike entry. This variety has a great future on the show table and as a commercial cut flower.

TWO NEW LAVENDERS

BADGER BEAUTY (Krueger) Introduced as, "A gladiolus for florists, growers, fanciers, exhibitors, and hybridists." There is no doubt of its beauty as we have seen it. We think it very promising and suggest that you give it a trial.

ELIZABETH THE QUEEN (White) This variety was introduced in 1941 with strong claims for its superior qualities. It has great beauty, as we saw it first as a seedling at the New York World's Fair in 1940 and later at shows in 1941. Whether it is **THE LAVENDER**, time will tell. In the meantime, we know you will want to grow it.

TWO GREAT GLADS

AMERICAN COMMANDER (New '38) and **KING WILLIAM** (Schenetsky '40) are two new varieties which have demonstrated their superiority. They can hold their own on the show table in any company. As commercial cut flowers they are outstanding. If you have not grown these varieties you should get a start now.

JOIN A GLADIOLUS SOCIETY

Persons interested in the growing of gladiolus, should join a society. The benefits and information received are worth much more than the dues. Some of the societies issue regular publications such as bulletins and year books. Others conduct trial gardens and issue reports on the varieties grown. They all conduct shows.

		Bulblets sold only with bulbs. Ten may be purchased with each bulb. (No discount).				
IRAK (Mitsch) This sport of Bagdad is a clear silvery grey. Unique yet beautiful in color. Very outstanding.	2 10	.15 .60	.10 .40	.20	100	.15
IRENE BLAKE (Gersdorff) Light yellow, small decorative, with slight carmine throat markings. Straight spike with 6 open. This variety has been exhibited by H. V. Wright and one or two others but has never been listed previously. I believe, it has never failed to win where exhibited.	1 10	.25 2.00		(No discount)		
IVORY KEYS (Ellis) A very fine ivory white. Stands heat well, has excellent substance and holds a good number open.	1 10	.15 1.20	.10 .75	2-.10 .40	100	.50
JACKIE FERRIS (Van Voorhis) Rosy lavender with cream throat. Winner in the decorative class at numerous shows.	1 10	.25 2.00	.18 1.50	.10 .75	10	.25
JALNA (Palmer) An odd but pretty combination of slate, gray and salmon. A striking exhibition smoky. Midseason.	2 10	.15 .60	.10 .40	.20	pkt.	.10

	Per	Large	Med.	Small	Bullets Per	
JASMINE (Palmer) Clear pale lemon yellow without marking. Moderately ruffled and very beautiful. One of the best recent introductions. 1st class cert. C. G. S.	1 10	.15 1.20	2-.15 .60	2-.10 .30	20 100	.10 .35
JOYFUL (Crow) Somewhat like Gloriana but more orange in color. Many open and a beautiful color.	2 10	.10 .40	.25	.15	pkt.	.10
KEWPIE (Brown) A dainty small decorative red with a picoted edge. A frequent prize winner. Very popular.	1 10	.10 .80				
KING ARTHUR (Arenius) Immense ruffled rosy lavender. A very distinctive and beautiful variety. Early midseason.	2 10	.12 .45	.25	.15	pkt.	.10
KING LEAR (Palmer) Magnificent new purple of great size and lustrous sheen. Nicely waved and ruffled.	1 10	.15 1.20	2-.15 .60	2-.10 .30	25 100	.10 .35
KING MIDAS (Herridge) New deep yellow that has been winning in the Maryland shows. Perhaps the best exhibition yellow to date.	1 10	.50 4.00	.25 2.00	.15 1.20	10 100	.15 1.00
KING WILLIAM (Schenetsky) Soft salmon and apricot blending to a clear unmarked cream throat. A Picardy seedling lighter in color than that variety and, in our opinion, more beautiful. Seems more vigorous than Picardy and likely to displace that variety as a commercial. A winner at the shows.	1 10	.50 4.00	.30 2.40	.15 1.20	10 100	.40 2.00
KING'S RANSOM (Almey-McCaw) Peach red blending to golden apricot salmon. Should be fine commercial. Early.	2 10	.12 .50	4-.15 .30	5-.10 .15	pkt.	.15
KRYTBERG (Alkemade) New pure white with about seven open. This one is very much worth while. Midseason.	1	.15	.10	2-.15	10	.15
LADDIE (Wilson) Very large light salmon pink. Tall, straight spike with many open.	1 10	.15 1.20	.10 .80		25	.10
LAVENDER QUEEN (Arenius) Shade of lavender deeper and cooler than Minuet. Recurved petals. We like it very much.	2 10	.15 .50	2-.10 .30	2-.10 .20	15 100	.10 .35
LEONA (Pruitt) Perhaps the best all purpose rose red. Tall straight wiry stem. This seems to be outstanding.	2 10	.12 .50	.10 .30	4-.10 .20		
LESCHI (Kaylor) Rich deep maroon red with darker blotch. A very fine variety and stands heat well. Midseason.	2 10	.12 .50	3-.10 .30	4-.10 .20	pkt.	.10
LIBELLE (Pfitzer) Perhaps the purest light blue from Pfitzer. Nice color but not a strong grower. Early.	2 10	.10 .40			pkt.	.10

GLADIOLUS SHOWS

If you really want to get a thrill out of your glads, in addition to the pleasure you derive from giving your surplus blooms to others who are less fortunate, we will tell you how to do it. Plan to visit as many of the gladiolus shows as possible and to exhibit your blooms. Dates of important Eastern shows already announced include the following: New England Gladiolus Society Show at Boston, August 19 and 20; Regional Show of N. E. G. S. sponsored by the West Virginia Society at Wheeling, August 1 and 2; Empire State Society Show in connection with the New York State Fair at Syracuse during the last week in August. Dates of other shows will be announced later by the various Societies.

SPECIAL DISCOUNT COUPON

This coupon will be accepted for 15% of the net cost of any order amounting to \$8.00 or more received with cash in full until January 15, 1942. Good for items from both retail and quantity lists.

This coupon is absolutely void after January 15, 1942.
